SUMMARY

Software engineer with experience building production web apps with Next.js, React, Node.js, and PostgreSQL. Shipped dashboards for AI voice agents and identity and verification platforms in Saudi Arabia, from polished interfaces to the APIs behind them.

SKILLS

Front End: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, React-Redux, Zustand, React Query, Material UI, Shadcn, Ant Design, Chart.js, Recharts, i18next, Sass, Leaflet, Firebase Cloud Messaging

Back End: Node.js, Express.js, REST API Design, JWT Authentication, Auth.js , TypeORM, Prisma, Stripe, Zod, Bcrypt, Helmet, Multer, Nodemailer, Server-Sent Events, Socket.IO

Databases: PostgreSQL, MySQL, MongoDB

Version Control: Git, GitHub

Tools: Docker, Firebase, Sanity, Postman, VS Code, Figma, Adobe XD, Jira

EXPERIENCE

Front-End Developer – Utrust - (Part-Time) - Remote Dec 2024 – Present

- Built high-performance Next.js dashboards with server-side rendering and data fetching for authenticated, real-time content.
- Integrated RESTful APIs for dynamic data rendering and implemented Chart.js for interactive data visualization.
- Optimized application performance by preventing redundant API calls on route changes, reducing network overhead.
- Styled UI components using Styled Components, maintaining a clean separation of logic and presentation.

Full Stack Developer – Operator Labs - (Full-Time) - Islamabad Nov 2025 – Aug 2026

- Identified and resolved frontend performance bottlenecks through code splitting, lazy loading, and server-side components, reducing initial load time
- Refactored existing codebase by extracting reusable, custom-styled UI components, improving maintainability and reducing code duplication.
- Collaborated with cross-functional teams including back-end and AI engineers to integrate features and deliver cohesive product experiences.
- Built REST API endpoints and PostgreSQL migrations in Node.js to support new features such as [billing / call history].

Front-End Developer – CARE (Full-Time) - Islamabad Nov 2023 – Nov 2025

- Designed and built accessible, reusable UI components using React, TypeScript, Tailwind CSS, and Shadcn, ensuring consistent design language across projects.
- Contributed to mobile-first, fast-loading interfaces aligned with UX/UI specifications from Figma and Adobe XD designs.

PROJECTS

Portfolio — Next.js, TypeScript, Tailwind CSS, shadcn/ui, Prisma, PostgreSQL (Neon), Auth.js, Cloudinary, Zod, React Hook Form, i18next.
A full-stack portfolio website that presents my projects, skills, experience and education. It is bilingual and has a private admin dashboard. From the dashboard I can update all content, including images, without changing the code.

Operator Labs — Next.js, javascript, Tailwind CSS, Ant Design, Redux
Customer-facing dashboard for managing AI voice bots — featuring real-time analytics, call history, voice configuration, billing, and prompt version control.

Operator Labs Website — Next.js, TypeScript, Tailwind CSS, Sanity, Cal.com
Built the marketing website with Sanity CMS for content management and Cal.com for demo bookings.

Food Delivery REST API — Node.js, Express, TypeScript, PostgreSQL, TypeORM, Stripe
Backend for a food delivery platform handling auth, roles, Stripe payments with webhooks, and live order tracking via Server-Sent Events.

uTrust - uFace Admin Hub — Next.js, TypeScript, Tailwind CSS, Ant Design, chart.js, i18next, zustand, leaflet
Admin dashboard for face registration and verification, letting Saudi Arabia's Transport General Authority (TGA) run random identity checks on delivery drivers.

uTrust - Tebyan — Next.js, TypeScript, Tailwind CSS, Ant Design, chart.js, i18next, Socket IO, zustand
Consent-based data-sharing platform for Saudi Arabia with real-time updates via Socket.IO.

uTrust - Driver's Portal — Next.js, TypeScript, Tailwind CSS, recharts, react-query, Firebase cloud messaging
Registration and activation system for drivers and organizations, with push notifications.

uTrust - KeyU — Next.js, TypeScript, Tailwind CSS, Ant Design, recharts, i18next, zustand, innovatrics
Privacy-focused authentication system similar to OAuth, with face verification.

EDUCATION

Capital University of Science and Technology 2019 – 2023
Bachelor of Science in Computer Science
